MEMORANDUM FOR	
SUBJECT	: Progress Report For Month of February 1957

- 1. Attached is the Records Center monthly statistical report for the month of February 1957.
- 2. The following summarizes the activity of the Branches during the month:

a. Accessioning

The Center called upon the Logistics Office/Transportation Division on seven different occasions to transfer a total of 825 cubic feet of records and distribution material. This is equivalent to the volume of 103, four drawer, legal size file cabinets which has a replacement value of \$36.462.

The Library/Acquisition Branch has retired 831 cubic feet of records that will not be accounted for until the paper work is received from that office.

b. Reference

The Center furnished 8398 items to requestors during the month. Of this number 1362 items were for records documents. This service is almost doubled the average of 770 items serviced per month for the first half of fiscal year 1957.

Office of Personnel job number 57-68 which contained three independent alphabetical file series has been consolidated into one series. This consolidation will facilitate future reference service.

25X1 The Office of Training has sent down 22 cubic feet of inactive records in which the disposition is unknown at this time.

the Area Records Officer of Training is working with the custodians in order to determine the disposition of the records.

During the month there were 16 different NIS elements which reached the minimum number that is required to make a re-run. OBI has been notified and a re-run will be made as soon as practical.

c. Disposal

During the month a total of 176 cubic feet of records and distribution material were destroyed and 203 cubic feet were transferred back to Headquarters. Because of the increased volume of material for destruction the labor problem has become more acute.

d. General

The cinder block wall has been completed and the shelving reinstalled. The aisle-way in that area was decreased by six inches, therefore, only records with a limited amount of reference activity will be housed in that area.
